ISMAIL AMMAR

AI Engineering Student

Rabat, Morocco · +212 691 260 468
eammarpro@gmail.com · is-ammar.me
github.com/Is-Ammar · linkedin.com/in/is-ammar

AI engineering student at 1337 (42 Network), focused on AI microservices and RAG / vector search pipelines in Python, and on low-level C and C++ software for Linux. Background in web security: board member and web/DFIR player on M4SEC, the CTF team ranked #1 in Morocco for the 2025 season.

SKILLS

AI & Backend	Python, FastAPI, Pydantic, SQLAlchemy, PostgreSQL, pgvector, RAG / vector search, Ollama (local LLMs), scikit-learn
Systems & DevOps	C, C++98, Linux, POSIX sockets, poll(), pthreads, Docker, Docker Compose, Nginx, Make, Git
Security	Web security, bug bounty / CTF, DFIR, network protocols (TCP, IRC)
Web	TypeScript, React, Node.js, Express, MongoDB, Tailwind CSS

PROJECTS

ft_transcendence | AI service, 1337 team project, in progress — github.com/yel-alja/FT_TRANSCENDENCE

Bug bounty platform with an AI service that flags duplicate reports and suggests triage and severity using local LLMs.

Python · FastAPI · PostgreSQL · pgvector · Ollama · Docker

BioGuide | NASA Space Apps Challenge 2025, team project — github.com/Is-Ammar/BioGuide

Web app for exploring NASA space biology research, with publication search, data dashboards and an AI chat assistant.

React · TypeScript · Node.js · Express · MongoDB

NavGuard | personal project — github.com/Is-Ammar/navguard

Anomaly detection for ship networks that watches GPS, AIS and engine control traffic to spot spoofing and tampering.

Python · scikit-learn · PyTorch · Docker

ft_irc | 1337 team project — github.com/Is-Ammar/ft_irc

IRC server that serves many clients from a single thread with non-blocking sockets and poll().

C++98 · Sockets · poll() · TCP

Minishell | C — github.com/Is-Ammar/MINI-SHELL

Bash-like shell with pipes, redirections, heredocs and subshells.

Inception | Docker — github.com/Is-Ammar/inception

WordPress, Nginx and MariaDB in Docker Compose, with every image built from scratch.

Other: miniRT (ray tracer in C), Philosophers (threads and mutexes), push_swap, Minitalk, Cloud Wishes (CTF web challenge).

EXPERIENCE

Software Engineering Student | 1337 School (42 Network), Rabat — 2024 - Present

Project-based, peer-reviewed school: C, C++, Unix system programming, networking and Docker.

Board Member, Recruiter, Web & DFIR Player | M4SEC CTF Team — 2024 - Present

Team ranked #1 in Morocco for the 2025 season and #135 worldwide on CTFtime. Top 10 at CyberSphere (1st), L3akCTF (4th), DeadSec (5th), RSTCON (4th) and FortID (6th).

Freelance Developer | Web & Security — 2025 - Present

Web apps and APIs for clients (React, TypeScript, Node.js, PostgreSQL), plus security reviews of their existing apps.

Navigation Systems Lead | Royal Moroccan Navy — 2022 - 2024

Ran shipboard navigation systems and telemetry, kept the sensor network at 99.9% uptime at sea, and led small teams.

Technical Analyst (Intern) | Royal Moroccan Navy — 2020 - 2022

Maintained and calibrated integrated bridge systems, and kept documentation in line with maritime regulations.

EDUCATION

1337 School (42 Network), Software Engineering — 2024 - Present

Hassan First University, Economics and Management — 2019 - 2021

Royal Moroccan Navy Training Center, maritime certifications — 2020 - 2023

LANGUAGES

Arabic, English, French
